Double degrees

Each year, many of our students go abroad in order to obtain a double degree from a foreign university or a Graduate School.

This opportunity is also available to you. It is possible from the last year of your studies at IMT Atlantique.

The duration can be 12, 18 or 24 months and will depend entirely on the destination you choose, so it may be necessary to apply for an extension on the standard end of course date.

► The concept is simple

You choose a masters-level study program that matches your skills at the end of the second year. The study abroad program is governed by double degree agreements established between IMT Atlantique and its partner universities. The credits obtained are taken into account for your graduation from IMT Atlantique as well as the partner university.

► Double degree agreements

A long-term immersion in the university of your choice will truly enable you to soak up the local culture and improve your language level, all the while enabling you to obtain two degrees.

One program, two degrees!
