National Research Organisations (ONR)

Research at IMT Atlantique is conducted at the highest level in close partnership with national research organisations (ONR):

- with the CNRS; IMT Atlantique supervises Joint Research Units in the fields of engineering sciences, nuclear physics and digital sciences: LS2N, Lab-STICC, IRISA, GEPEA and Subatech
- with INRIA; IMT Atlantique supervises 4 Inria Project Teams (EPI) in the field of digital sciences (network architecture, IoT, cloud, cyber, formal methods): DIONOYSOS, EASE, GALLINETTE, STACK
- with INSERM; IMT Atlantique is a trustee of LATIM, combining digital and health sciences
