Mardi 30.08.2022 : jusqu’à 17:00

Adresse :
Polytechnique Montréal
2500 Chem. de Polytechnique,
Montréal, QC H3T 1J4

Public cible
Enseignants chercheurs
Doctorants

Last year, the 11th International Symposium on Topics in Coding had to be held in a virtual format. Not being able to meet in person was a major disappointment to most.

We thus decided to organize a two-day workshop where you will have the opportunity to meet and share your work in person. The workshop will be held in Montreal from Monday August 29th to Tuesday August 30th, 2022. The workshop will feature invited talks and poster sessions providing a broad overview of the current status of advanced research in coding and its applications.
